## PRODUCT DATA SHEET

### 941 LBA

#### 941 Burnish and Leveling Agent

Product #18

#### Applications

941 LBA is a linear polydimethylsiloxane polymer designed for use in systems containing non-leaving aluminums.

#### Benefits

- Higher Brightness
- Controlled Uniformity
- Controls Burnishing
- Prevents "Black" Float

#### Recommended Additions

3.5 lbs. to 9 lbs. per 100 gal. (0.5% to 1.5% of total weight). Can be added during letdown or post manufacturing.

#### Typical Properties

**Visc.:** 18 - 25 cps

**Color:** Clear

**Sp. Grav.:** 0.887

**Solvents:** Aromatic 150

**Wt./Gal.:** 7.39 lbs./gal
