PRODUCT DATA SHEET

ASAFAMA

Product #24

Applications

ASAFAMA is a highly-modified silicone fluid designed for use in systems where a dimethyl silicone may be a problem. In addition to the benefits listed, **ASAFAMA** will also enhance the application defoaming properties of your coating.

Benefits

- Improves Mar Resistance - *Without Recoat Problems*
- Easy to Incorporate
- Anti-Silking
- Sharpens Gloss
- Improves Flow
- Improved Color Acceptance

Recommended Additions

4 lbs. to 10lbs. per 100 gal. (0.5% to 2.0% of total weight). Can be added during or after letdown.

Typical Properties

Visc.: 12 - 18 cps

Color: Clear

Sp. Grav.: 0.892

Solvents: Aromatic 150

Wt./Gal.: 7.43 lbs./gal
