PRODUCT DATA SHEET

SA #1

Smooth Aid #1

Product #25

Applications

SA #1 is a proprietary silicone blend designed for use in high solids coatings. Its primary function is to improve flow and leveling during application. Systems include virtually all high solids resins.

Benefits

- Increases Flow
- Eliminates Application Bubbles
- Improves Mar Resistance
- Reduces Orange Peel

Recommended Additions

3.5 lbs. to 9 lbs. per 100 gal. (0.5% to 2.0% of total weight). Can be post-added, or added during letdown.

Typical Properties

Visc.: 14 - 18 cps

Color: Clear

Sp Grav.: 0.887

Solvents: Aromatic 150

Wt./Gal.: 7.39 lbs./gal
