## PRODUCT DATA SHEET

### WRACLA

#### Water Reducible Anti-Cratering Leveling Agent

Product #26

#### Applications

**WRACLA** is an anionic fluorosurfactant designed for use in water-based and water-reducible systems. Through improved wetting, **WRACLA** can be used to enhance adhesion to chalky surfaces in aqueous coatings.

#### Benefits

- Enhanced Adhesion
- Prevents Cratering
- Improved Leveling
- Reduces Edge Pull

#### Recommended Additions

5 lbs. to 9 lbs. per 100 gal. (0.5% to 2.0% of total weight). May be added during grind or letdown.

#### Typical Properties

**Visc.:** 14 - 18 cps

**Color:** Clear

**Sp. Grav.:** 0.96

**Solvents:** Glycol Ether PM

**Wt./Gal.:** 8.00 lbs./gal
